

Open Enrollment Program Cycle (Non-Cohort Schedule)

Program completion is contingent upon attendance of and active participation in all coursework modules. The program cycle is comprised of 21 weeks (294 clock hours of coursework, which includes 10 modules and 10 hours of test preparation), and 30 classroom observation hours. The following list of modules must be completed in varying order of each candidate's admission to the program.

Module #	Program Cycle Start Date (Open)	Timeframe (clock hours)
1	Open enrollment (Candidate may begin any program module upon completion of admission process).	3 weeks (42 clock hours)
2	Open enrollment (Candidate may begin any program module upon completion of admission process).	3 weeks (42 clock hours)
3	Open enrollment (Candidate may begin any program module upon completion of admission process).	2 weeks (28 clock hours)
4	Open enrollment (Candidate may begin any program module upon completion of admission process).	2 weeks (28 clock hours)
5	Open enrollment (Candidate may begin any program module upon completion of admission process).	2 weeks (28 clock hours)
6	Open enrollment (Candidate may begin any program module upon completion of admission process).	2 days (8 clock hours)
7	Open enrollment (Candidate may begin any program module upon completion of admission process).	1 day (6 clock hours)
8	Open enrollment (Candidate may begin any program module upon completion of admission process).	2 weeks (28 clock hours)
9	Open enrollment (Candidate may begin any program module upon completion of admission process).	3 weeks (42 clock hours)
10	Open enrollment (Candidate may begin any program module upon completion of admission process).	3 weeks (42 clock hours)

*Program length is a total of 21 weeks of classroom instruction and an internship of 10 months being paid as a teacher of record (once employment is obtained by the teacher candidate).
